

Group D & E

Week 1 (4th – 8th December 2017)

Theme: Cell Injury & Cellular adaptation

Week/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30					
10:35-11:30	Lecture: Cell injury & its types Venue: Auditorium	Lecture: Mechanism of cell injury Venue: Auditorium	Lecture: Patterns of Cell Death Venue: Auditorium	Lecture: Cellular adaptation Venue: Auditorium	Lecture: Intracellular accumulations & Calcification & Pigmentation Venue: Auditorium
11:35-12:35	Lecture: Cell injury: reversible & Irreversible Venue: Auditorium	Lecture: Pharmacokinetics - Bioavailability Venue: Auditorium	Lecture: Behavioral sciences Venue: Auditorium	Lecture: Pharmacokinetics – Distribution of a drug Venue: Auditorium Facilitator:	Lecture: Pharmacokinetics – Excretion of a drug & Half-Life Venue: Auditorium
12:36-01:10	Lunch/ Prayer Break				
01:15-02:00					
02:05-03:00					

*venues and schedule are subject to change. Students will be informed on site.

Group D & E

Week 2 (11th December 2017)

Theme: Acute & Chronic Inflammation

Week/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30	Group D: Pharmacology SGD – Pathology Group E:	Group D: Group E: Pharmacology SGD – Microbiology lab	Group D: Group E:	Group D: Pathology SGD – Biochemistry lab Group E:	Group D: Group E: Pathology SGD – Microbiology lab
10:35-11:30	Lecture: Acute inflammation Venue: Auditorium	Lecture: Chronic inflammation Venue: Auditorium	Lecture: Inflammation – Systemic effects Venue: Auditorium	Lecture: Tissue repair & Wound Healing Venue: Auditorium	Lecture: Hyperemia & Congestion Venue: Auditorium
11:35-12:35	Lecture: Acute inflammation – Cellular elements Venue: Auditorium	Lecture: Pharmacodynamics - Agonists Venue: Auditorium	Lecture: Behavioral Sciences Venue: Auditorium	Lecture: Pharmacodynamics – Drug-dose response Venue: Auditorium	Lecture: Pharmacodynamics – Drug Antagonists Venue: Auditorium
12:36-01:10	Lunch/ Prayer Break				
01:15-03:00	Group A1: Clinical Skills Laboratory Venue: Block C	Group B1: Clinical Skills Laboratory Venue: Block C	Group C1: Clinical Skills Laboratory Venue: Block C	Group D1: Clinical Skills Laboratory Venue: Block C	Group E1: Clinical Skills Laboratory Venue: Block C

*venues and schedule are subject to change. Students will be informed on site.

Group D & E

Week 3 (18th December 2017)

Theme: Hemodynamics

Week/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30	Group D: Pharmacology SGD – Lecture hall Group E:	Group D: Group E: Pharmacology SGD – Microbiology lab	Group D: Group E:	Group D: Pathology SGD – Biochemistry lab Group E:	Group D: Group E: Pathology SGD – Microbiology lab
10:35-11:30	Lecture: Thrombosis Venue: Auditorium Facilitator:	Lecture: Embolism Venue: Auditorium Facilitator:	Lecture: Infarction Venue: Auditorium Facilitator:	Lecture: Neoplasia: Introduction & Classification Venue: Auditorium	Lecture: Characteristics of Benign & Malignant Tumors Venue: Auditorium
11:35-12:35	Lecture: Edema Venue: Auditorium	Lecture: Introduction to Immunology (P) Venue: Auditorium	Lecture: Behavioral sciences Venue: Auditorium	Lecture: Cells & Molecules of Innate Immunity (P) Venue: Auditorium Facilitator:	Lecture: Cells & Molecules of acquired immunity (P) Venue: Auditorium
12:36-01:10	Lunch/ Prayer Break				
01:15-03:00	Group A2: Clinical Skills Laboratory Venue: Block C	Group B2: Clinical Skills Laboratory Venue: Block C	Group C2: Clinical Skills Laboratory Venue: Block C	Group D2: Clinical Skills Laboratory Venue: Block C	Group E2: Clinical Skills Laboratory Venue: Block C

*venues and schedule are subject to change. Students will be informed on site

Group D & E

Week 4 (25th December 2017)

Theme: Benign & Malignant Tumors

Week/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30	Public Holiday	Group D: S.S Group E: Immunity SGD – Microbiology lab	Public Holiday	Group D: Pathology SGD – Lecture hall Group E: S.S	Group D: Immunity SGD – Lecture hall Group E: Pathology SGD – Microbiology lab
10:35-11:30		Lecture: Carcinogenesis Venue: Auditorium		Lecture: Carcinogenic agents Venue: Auditorium	Lecture: Diagnosis of Neoplasia Venue: Auditorium
11:35-12:35		Lecture: Anergy & Tolerance (P) Venue: Auditorium		Lecture: Hypersensitivity reaction I & II (Pa) Venue: Auditorium	Lecture: Hypersensitivity reaction III & IV (Pa) Venue: Auditorium
12:36-01:10		Lunch/ Prayer Break		Lunch/ Prayer Break	
01:15-03:00		Reserved for Study To be Confirmed		Reserved for Study To be Confirmed	Reserved for Study To be Confirmed

*venues and schedule are subject to change. Students will be informed on site.

Group D & E

Week 5 (1st January 2018)

Theme: Immunopathology

Week/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-09:30	Lecture: Forensic Medicine Venue: Lecture hall	Clinical Rotation - Surgery			
09:31-10:30	Lecture: Introduction to Antibiotics - Classification Venue: Lecture hall				
10:40-11:40	Lecture: Immunodeficiency (Pa) Venue: Auditorium	Lecture: Autoimmunity (Pa) Venue: Auditorium	Lecture: Tumor Immunity (Pa) Venue: Auditorium	Lecture: Introduction to Microbiology & Structure of Bacteria Venue: Auditorium	Lecture: Bacterial cell wall Venue: Auditorium
11:45-12:45	Lecture: Introduction to Community Medicine Venue: Auditorium	Lecture: Disease Causation and Prevention Venue: Auditorium	Lecture: Behavioral sciences Venue: Auditorium	Lecture: Introduction to Penicillin Venue: Auditorium	Lecture: Cell wall inhibitors – Penicillin Venue: Auditorium
12:46-01:10	Lunch/ Prayer Break				
01:15-03:15	Group D: Immunity SGD – Microbiology lab Group E: Forensic Medicine – Forensic lab	Group D: Directed self-study Group E: Immunity SGD – Microbiology lab	Group D: Directed self-study Group E: Directed self-study	Group D: Pathology SGD – Pathology lab Group E: Directed self-study	Group D: Forensic Medicine – Forensic lab Group E: Pathology SGD – Pathology lab

*venues and schedule are subject to change. Students will be informed on site.

Week 6 (8th January 2018)

Assessment Week

Week/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30	Study Leave	Study Leave	Written Exam: General Pathology + Immunity Exam 75 MCQs Duration: 1 hour & 20 minutes	Written Exam: Behavioral Sciences 25 MCQs Pharmacology Exam 30 MCQs Duration: 60 minutes	Integrated Practical Examination. (Spot & Viva Examination)
10:40-11:40					
11:45-12:45					
12:50-01:10					
01:15-03:00					

Written Exams start at 09:00 AM & Practical examination at 08:30 AM.

Students must arrive in time

Cell phones are not allowed during written practical and written examination. They may be secured on the premises of the university.

Students must bring their own stationary.

Group D & E

Week 1 (15th January 2018)

Theme: Microorganisms

Week/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-09:30	Lecture: Forensic Medicine Venue: Lecture hall	Clinical Rotation - Surgery			
09:31-10:30					
10:40-11:40	Lecture: Microbial growth & Division Venue: Auditorium	Lecture: Bacterial Genetics Venue: Auditorium	Lecture: Pathogenesis of Bacterial diseases Venue: Auditorium	Lecture: Classification of Bacteria Venue: Auditorium	Lecture: Gram +ve (Staphylococcus) Venue: Auditorium
11:45-12:45	Lecture: Cell wall inhibitors – Cephalosporin Venue: Auditorium	Lecture: Introduction to Epidemiology Venue: Auditorium	Lecture: Behavioral sciences Venue: Auditorium	Lecture: Measures of Disease Occurrence Venue: Auditorium	Lecture: Antibiotics – Aminoglycosides Venue: Auditorium
12:46-01:10	Lunch/ Prayer Break				
01:15-03:15	Group D: Pharmacology SGD – Auditorium Group E: Forensic Medicine – Forensic Medicine lab	Group D: Community Medicine – Auditorium Group E: Pharmacology SGD – Auditorium	Group D: Microbiology lab – Microbiology lab Group E: Community Medicine – Auditorium	Group D: Immunity SGD – Pathology lab Group E: Microbiology lab – Microbiology lab	Group D: Forensic Medicine – Forensic Medicine lab Group E: Immunity SGD – Pathology lab

*venues and schedule are subject to change. Students will be informed on site.

Group D & E

Week 2 (22nd January 2018)

Theme: Antibiotics & their Mechanism of action

Week/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-09:30	Lecture: Forensic Medicine Venue: Lecture hall	Clinical Rotation - Surgery			
09:31-10:30					
10:40-11:40	Lecture: Bacteria – Gram +ve (Streptococcus) Venue: Auditorium	Lecture: Bacteria - Gram -ve cocci Venue: Auditorium	Lecture: Bacteria - Gram +ve Bacilli Venue: Auditorium	Lecture: Bacteria - Gram +ve Bacilli continued... Venue: Auditorium	Lecture: Bacteria - Gram -ve Bacilli Venue: Auditorium
11:45-12:45	Lecture: Antibiotics - Macrolides Venue: Auditorium	Lecture: Epidemiology, Prevention & Control of Communicable disease Venue: Auditorium	Lecture: Behavioral sciences Venue: Auditorium	Lecture: Prevention & Control of Droplet Infection Venue: Auditorium	Lecture: Antibiotics – Tetracyclines & Chloramphenicol Venue: Auditorium
12:46-01:10	Lunch/ Prayer Break				
01:15-03:15	Group D: Pharmacology SGD – Pharmacology lab Group E: Forensic Medicine – Forensic Medicine lab	Group D: Community Medicine – Auditorium Group E: Pharmacology SGD – Pharmacology lab	Group D: Microbiology lab – Microbiology lab Group E: Community Medicine – Auditorium	Group D: Directed self-study Group E: Microbiology lab – Microbiology lab	Group D: Forensic Medicine – Forensic Medicine lab Group E: Directed self-study

*venues and schedule are subject to change. Students will be informed on site.

Group D & E

Week 3 (29th January 2018)

Theme: Prevention of Communicable Diseases

Week/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-09:30	Lecture: Forensic Medicine Venue: Lecture hall	Clinical Rotation - Surgery			
09:31-10:30					
10:40-11:40	Lecture: Bacteria - Gram -ve Bacilli continued... Venue: Auditorium	Lecture: Acid-fast Bacilli Venue: Auditorium Facilitator:	Lecture: Acid-fast Bacilli continued... Venue: Auditorium	Lecture: Introduction to Virology & Classification Venue: Auditorium	Lecture: Virus: Replication & Virulence Venue: Auditorium
11:45-12:45	Lecture: Antibiotics – Quinolones & folic acid inhibitors Venue: Auditorium	Lecture: Prevention and Control of Diseases spread by Oro-Fecal route Venue: Auditorium	Lecture: Behavioral sciences Venue: Auditorium	Lecture: Prevention and Control of Vector-borne Diseases Venue: Auditorium	Lecture: Anti-Tuberculous Venue: Auditorium
12:46-01:10	Lunch/ Prayer Break				
01:15-03:15	Group D: Pharmacology SGD – Pharmacology lab Group E: Forensic Medicine – Forensic Medicine lab	Group D: Community Medicine – Auditorium Group E: Pharmacology SGD – Pharmacology lab	Group D: Microbiology lab – Microbiology lab Group E: Community Medicine – Auditorium	Group D: Directed self-study Group E: Microbiology lab – Microbiology lab	Group D: Forensic Medicine – Forensic Medicine lab Group E: Directed self-study

*venues and schedule are subject to change. Students will be informed on site.

Group D & E

Week 4 (5th February 2018)

Theme: Antibiotics & their Mechanism of action

Week/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-09:30	Public Holiday	Clinical Rotation - Surgery			
09:31-10:30		Clinical Rotation - Surgery			
10:40-11:40		Lecture: DNA & RNA Viruses Venue: Auditorium	Lecture: Mycology Venue: Auditorium	Lecture: Introduction to Parasitology Venue: Auditorium	Lecture: Parasitology Venue: Auditorium
11:45-12:45		Lecture: Prevention and Control of Diseases spread through Direct contact Venue: Auditorium	Lecture: Behavioral sciences Venue: Auditorium	Lecture: Dengue & Malaria (CM) Venue: Auditorium	Lecture: Anti-Viral Drugs Venue: Auditorium
12:46-01:10		Lunch/ Prayer Break			
01:15-03:15		Group D: Community Medicine – Auditorium Group E: Pharmacology SGD – Pharmacology lab	Group D: Pharmacology SGD – Pharmacology lab Group E: Community Medicine – Auditorium	Group D: Microbiology lab – Microbiology lab Group E: Forensic Medicine – Auditorium	Group D: Forensic Medicine– Auditorium Group E: Microbiology lab – Microbiology lab

*venues and schedule are subject to change. Students will be informed on site.

Group D & E

Week 5 (12th February 2018)

Theme: Antibiotics & their Mechanism of action

Week/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-09:30	Lecture: Forensic Medicine Venue: Lecture hall	Clinical Rotation - Surgery			
09:31-10:30					
10:40-11:40	Lecture: Parasitology Venue: Auditorium	Lecture: Parasitology Venue: Auditorium	Lecture: Parasitology Venue: Auditorium Facilitator:	Lecture: Parasitology Venue: Auditorium	Lecture: Parasitology Venue: Auditorium
11:45-12:45	Lecture: Anti-fungal drugs Venue: Auditorium	Lecture: Hepatitis Venue: Auditorium	Lecture: Behavioral sciences Venue: Auditorium	Lecture: Poliomyelitis Venue: Auditorium	Lecture: Anti-malarial drugs Venue: Auditorium
12:46-01:10	Lunch/ Prayer Break				
01:15-03:15	Group D: Pharmacology SGD – Pharmacology lab Group E: Forensic Medicine – Forensic Medicine lab	Group D: Community Medicine – Auditorium Group E: Pharmacology SGD – Pharmacology lab	Group D: Microbiology lab – Microbiology lab Group E: Community Medicine – Auditorium	Group D: Directed self-study Group E: Microbiology lab – Microbiology lab	Group D: Forensic Medicine – Forensic Medicine lab Group E: Directed self-study

*venues and schedule are subject to change. Students will be informed on site.

Week 6 (19th February 2018)

Assessment Week

Week/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30	Study Leave	Study Leave	Written Exam: Microbiology Exam 75 MCQs Pharmacology Exam 25 MCQs Duration: 1 hour & 45 minutes	Written Exam: Behavioral Sciences 25 MCQs Community Medicine 25 MCQs Forensic Medicine 25 MCQs Duration: 1 hour & 20 Minutes	Integrated Practical Examination. (Spot & No Viva Examination) Female Students
10:40-11:40					
11:45-12:45					
12:50-01:10					
01:15-03:00					

Written Exams start at 09:00 AM & Practical examination at 08:30 AM.

Students must arrive in time

Cell phones are not allowed during written practical and written examination. They may be secured on the premises of the university.

Students must bring their own stationary.
