

**Timetable
Group D & E**

Week 1 (9th April 2018)

Theme: Structure & Functions of Endocrine glands

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08.30 – 10.30	Group D: Directed self-study Group E: Directed self-study	Group D: Histology lab Group E: Directed self-study	Group D: CSL – Block C Group E: Histology lab	Group D: Anatomy lab Group E: CSL – Block C	Group D: Directed self-study Group E: Anatomy lab
10.35 – 11.35	Lecture: Overview of hormone system of body (P) Venue: Lecture hall 4	Lecture: Mechanism of action of hormones (P) Venue: Lecture hall 4	Lecture: Mechanism of action of hormones continued... (P) Venue: Lecture hall 4	Lecture: Anterior pituitary hormones (P) Venue: Lecture hall 4	Lecture: Posterior pituitary hormones & hypothalamus (P) Venue: Lecture hall 4
11.40 – 12.40	Lecture: Macroscopic & microscopic structure of the pituitary gland (A) Venue: Lecture hall 4	Lecture: Macroscopic & microscopic structure of Thyroid gland (A) Venue: Lecture hall 4	Lecture: Macroscopic and microscopic features of para-thyroid gland. (A) Venue: Lecture hall 4	Lecture: Macroscopic & microscopic structure of mammary glands (A) Venue: Lecture hall 4	Lecture: Development of pituitary and thyroid gland (A) Venue: Lecture hall 4
12:45 – 01:15	Lunch/ Prayer Break				
01.00 – 03.00	Group D: Directed self-study Group E: Directed self-study	Group D: Directed self-study Group E: Directed self-study	Group D: Embryology tutorial – Lecture hall 3 Group E: Directed self-study	Group D: Directed self-study Group E: Embryology tutorial – Lecture hall 4	Group D+E: Physiology Lecture – Lecture hall 4

CSL: Signs and symptoms of the Endocrine disorders

Embryology Tutorial: Development of the Pituitary gland

Anatomy lab: Anatomy of the Endocrine gland – Pituitary gland

Histology lab: Microscopic anatomy of the endocrine glands – Pituitary gland

Physiology lecture: Pituitary abnormalities

Group A, B & C

Week 1 (9th April 2018)

Theme: Structure & Functions of Endocrine glands

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08.30 – 10.30	Group A: Anatomy lab Group B: CSL – Block C Group C: Histology lab	Group A: Biochemistry lab Group B: Anatomy lab Group C: CSL – Block C	Group A: Directed self-study Group B: Biochemistry lab Group C: Anatomy lab	Group A: Histology lab Group B: Directed self-study Group C: Biochemistry lab	Group A: CSL – Block C Group B: Histology lab Group C: Directed self-study
10.35 – 11.35	Lecture: Macroscopic & microscopic structure of the pituitary gland (A) Venue: Lecture hall 3	Lecture: Macroscopic & microscopic structure of Thyroid gland (A) Venue: Lecture hall 3	Lecture: Macroscopic and microscopic features of para-thyroid gland. (A) Venue: Lecture hall 3	Lecture: Macroscopic & microscopic structure of mammary glands (A) Venue: Lecture hall 3	Lecture: Development of pituitary and thyroid gland (A) Venue: Lecture hall 3
11.40 – 12.40	Lecture: Overview of hormone system of body (P) Venue: Lecture hall 3	Lecture: Mechanism of action of hormones (P) Venue: Lecture hall 3	Lecture: Mechanism of action of hormones continued... (P) Venue: Lecture hall 3	Lecture: Anterior pituitary hormones (P) Venue: Lecture hall 3	Lecture: Posterior pituitary hormones & hypothalamus (P) Venue: Lecture hall 3
12:45 – 01:15	Lunch/ Prayer Break				
01.00 – 03.00	Group A: Embryology tutorial – Lecture hall 3 Group B: Embryology tutorial – Anatomy lab Group C: Directed self-study	Group A: Directed self-study Group B: Directed self-study Group C: Embryology tutorial – Lecture hall 3	Group A: Directed self-study Group B: Directed self-study Group C: Directed self-study	Group A+B+C: Physiology Lecture – Lecture hall 3	Group A: Directed self-study Group B: Directed self-study Group C: Directed self-study

CSL: Signs and symptoms of the Endocrine disorders

Embryology Tutorial: Development of the Pituitary gland

Anatomy lab: Anatomy of the Endocrine gland – Pituitary gland

Histology lab: Microscopic anatomy of the endocrine glands – Pituitary gland

Physiology lecture: Pituitary abnormalities

Group D & E

Week 2 (16th April 2018)

Theme: Hormones of the Endocrine glands

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08.30 – 10.30	Group D: Directed self-study Group E: Biochemistry lab	Group D: Histology lab Group E: Directed self-study	Group D: CSL – Block C Group E: Histology lab	Group D: Anatomy lab Group E: CSL – Block C	Group D: Biochemistry lab Group E: Anatomy lab
10.35 – 11.35	Lecture: Thyroid hormone synthesis (P) Venue: Lecture hall 4	Lecture: Thyroid gland - functions (P) Venue: Lecture hall 4	Lecture: Adrenal cortex (P) Venue: Lecture hall 4	Lecture: Adrenal cortex (P) Venue: Lecture hall 4	Lecture: Adrenal medulla (P) Venue: Lecture hall 4
11.40 – 12.40	Lecture: Macroscopic and microscopic features of supra-renal glands (A) Venue: Lecture hall 4	Lecture: Illicit use of the androgens (Ph) Venue: Lecture hall 4	Lecture: Diseases of the Thyroid Gland: Grave’s Disease (Pa) Venue: Lecture hall 4	Lecture: Diseases of the Thyroid gland: Thyroiditis (Pa) Venue: Lecture hall 4	Lecture: Drugs used in Thyroid disorders (Ph) Venue: Lecture hall 4
12:45 – 01:15	Lunch/ Prayer Break				
01.00 – 03.00	Group D: Directed self-study Group E: Directed self-study	Group D: Directed self-study Group E: Directed self-study	Group D: Anatomy SGD – Anatomy lab Group E: Physiology SGD – Biochemistry lab	Group D: Physiology SGD – Lecture hall 4 Group E: Anatomy SGD – anatomy lab	Group D + E: Physiology lecture: Lecture hall 4

CSL: History taking of patient with hyperthyroidism & hypothyroidism

Embryology Tutorial: Development of the Thyroid & Para-thyroid glands & Pancreas

Anatomy lab: Anatomy of the Endocrine gland – Thyroid gland

Histology lab: Microscopic anatomy of the endocrine glands – Thyroid & Para-thyroid glands

Biochemistry lab: Thyroid gland metabolism

Physiology lecture: Adrenal-Cortical abnormalities

Group A, B & C

Week 2 (16th April 2018)

Theme: Hormones of the Endocrine glands

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30 – 10:30	Group A: Anatomy lab Group B: CSL – Block C Group C: Histology lab	Group A: Biochemistry lab Group B: Anatomy lab Group C: CSL – Block C	Group A: Directed self-study Group B: Biochemistry lab Group C: Anatomy lab	Group A: Histology lab Group B: Directed self-study Group C: Biochemistry lab	Group A: CSL – Block C Group B: Histology lab Group C: Directed self-study
10:35 – 11:35	Lecture: Macroscopic and microscopic features of supra-renal glands (A) Venue: Lecture hall 3	Lecture: Illicit use of the androgens (Ph) Venue: Lecture hall 3	Lecture: Diseases of the Thyroid Gland: Grave’s Disease (Pa) Venue: Lecture hall 3	Lecture: Diseases of the Thyroid gland: Thyroiditis (Pa) Venue: Lecture hall 3	Lecture: Drugs used in Thyroid disorders (Ph) Venue: Lecture hall 3
11:40 – 12:40	Lecture: Thyroid hormone synthesis (P) Venue: Lecture hall 3	Lecture: Thyroid gland - functions (P) Venue: Lecture hall 3	Lecture: Adrenal cortex (P) Venue: Lecture hall 3	Lecture: Adrenal cortex (P) Venue: Lecture hall 3	Lecture: Adrenal medulla (P) Venue: Lecture hall 3
12:45 – 01:15	Lunch/ Prayer Break				
01:00 – 03:00	Group A: Physiology SGD – Lecture hall 3 Group B: Anatomy SGD – Anatomy lab Group C: Directed self-study	Group A: Directed self-study Group B: Physiology SGD – Lecture hall 3 Group C: Anatomy SGD – Anatomy lab	Group A: Directed self-study Group B: Directed self-study Group C: Physiology SGD – Lecture hall 3	Group A+B+C: Physiology lecture: Lecture hall 3	Group A: Anatomy SGD – Lecture hall 3 Group B: Directed self-study Group C: Directed self-study

CSL: History taking of patient with hyperthyroidism & hypothyroidism

Embryology Tutorial: Development of the Thyroid & Para-thyroid glands & Pancreas

Anatomy lab: Anatomy of the Endocrine gland – Thyroid gland

Histology lab: Microscopic anatomy of the endocrine glands – Thyroid & Para-thyroid glands

Biochemistry lab: Thyroid gland metabolism

Physiology lecture: Adrenal-Cortical abnormalities

Group D & E

Week 3 (23rd April 2018)

Theme: Nutrition and balanced diet

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30 – 10:30	Group D: Directed self-study Group E: Biochemistry lab	Group D: Directed self-study Group E: Directed self-study	Group D: CSL – Block C Group E: Directed self-study	Group D: Pathology lab Group E: CSL – Block C	Group D: Biochemistry lab Group E: Pathology lab
10:35 – 11:35	Lecture: Pathology of Adrenal gland (Pa) Venue: Lecture hall 4	Lecture: Endocrine pancreas (P) Venue: Lecture hall 4	Lecture: Endocrine pancreas continued... (P) Venue: Lecture hall 4	Lecture: Medical Ethics – Special cases Venue: Lecture hall 4 Instructor: Dr. Zohaib Memon	Lecture: Endocrine pancreas continued... (P) Venue: Lecture hall 4
11:40 – 12:40	Lecture: Drugs used in Thyroid disorders (Ph) Venue: Lecture hall 4	Lecture: Nutrition: Introduction & Energy needs based on age & sex (B) Venue: Lecture hall 4	Lecture: Iron & Selenium (B) Venue: Lecture hall 4	Lecture: Ketone bodies: structure & functions (B) Venue: Lecture hall 4	Lecture: Regulation of blood glucose & Diabetic Ketoacidosis (B) Venue: Lecture hall 4
12:45 – 01:15	Lunch/ Prayer Break				
01:00 – 03:00	Group D: Pathology SGD – Biochemistry lab Group E: Directed self-study	Group D: Directed self-study Group E: Pathology SGD – Biochemistry lab	Group D: Pharmacology SGD – Lecture hall 4 Group E: Directed self-study	Group D: Physiology SGD – Anatomy lab Group E: Pharmacology SGD – Biochemistry lab	Group D: Directed self-study Group E: Physiology SGD – Biochemistry lab

CSL: Physical examination of the Thyroid gland**Pathology SGD:** Thyroid gland diseases**Anatomy lab:** Anatomy of the Endocrine gland – Supra-renal glands & Pancreas**Histology lab:** Microscopic anatomy of the endocrine glands: Thyroid glands**Biochemistry lab:** Endocrine pancreas – Random Blood Sugar & Fasting Blood Sugar

Group A, B & C

Week 3 (23rd April 2018)

Theme: Nutrition and balanced diet

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08.30 – 10.30	Group A: Pathology lab Group B: CSL – Block C Group C: Directed self-study	Group A: Biochemistry lab Group B: Pathology lab Group C: CSL – Block C	Group A: Directed self-study Group B: Biochemistry lab Group C: Pathology lab	Group A: Directed self-study Group B: Directed self-study Group C: Biochemistry lab	Group A: CSL – Block C Group B: Directed self-study Group C: Directed self-study
10.35 – 11.35	Lecture: Drugs used in Thyroid disorders (Ph) Venue: Lecture hall 3	Lecture: Nutrition: Introduction & Energy needs based on age & sex (B) Venue: Lecture hall 3	Lecture: Iron & Selenium (B) Venue: Lecture hall 3	Lecture: Ketone bodies: structure & functions (B) Venue: Lecture hall 3	Lecture: Regulation of blood glucose & Diabetic Ketoacidosis (B) Venue: Lecture hall 3
11.40 – 12.40	Lecture: Pathology of Adrenal gland (Pa) Venue: Lecture hall 3	Lecture: Endocrine pancreas (P) Venue: Lecture hall 3	Lecture: Endocrine pancreas continued... (P) Venue: Lecture hall 3	Lecture: Medical Ethics – Special cases Venue: Lecture hall 3 Instructor: Dr. Zohaib Memon	Lecture: Endocrine pancreas continued... (P) Venue: Lecture hall 3
12:45 – 01:15	Lunch/ Prayer Break				
01.00 – 03.00	Group A: Physiology SGD – Lecture hall 3 Group B: Pharmacology SGD – Anatomy lab Group C: Directed self-study	Group A: Directed self-study Group B: Physiology SGD – Lecture hall 3 Group C: Pharmacology SGD – anatomy lab	Group A: Pathology SGD – Lecture hall 3 Group B: Directed self-study Group C: Physiology SGD – Anatomy lab	Group A: Directed self-study Group B: Pathology SGD – Lecture hall 3 Group C: Directed self-study	Group A: Pharmacology SGD – Lecture hall 3 Group B: Directed self-study Group C: Pathology SGD – Anatomy lab

CSL: Physical examination of the Thyroid gland**Pathology SGD:** Thyroid gland diseases**Anatomy lab:** Anatomy of the Endocrine gland – Supra-renal glands & Pancreas**Histology lab:** Microscopic anatomy of the endocrine glands: Thyroid glands**Biochemistry lab:** Endocrine pancreas – Random Blood Sugar & Fasting Blood Sugar

Group D & E

Week 4 (30th April 2018)

Theme: Diabetes Mellitus

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday	
08.30 – 10.30	Group D: Anatomy lab Group E: Anatomy lab	Public Holiday – Labour Day 1 st May 2018	Group D: CSL – Block C Group E: Directed self-study	Group D: Pathology lab Group E: CSL – Block C	Group D: Directed self-study Group E: Pathology lab	
10.35 – 11.35	Lecture: Diseases of the Endocrine Pancreas (Pa) Venue: Lecture hall 4		Lecture: Oral Hypoglycaemic drugs (Ph) Venue: Lecture hall 4	Lecture: Medical Ethics – Special cases Venue: Lecture hall 4 Instructor: Dr. Zohaib Memon	Lecture: Oral Hypoglycaemic drugs (Ph) Venue: Lecture hall 4	
11.40 – 12.40	Lecture: Zinc & Fluoride (B) Venue: Lecture hall 4		Lecture: Iodine & Sulphur (B) Venue: Lecture hall 4	Lecture: Sodium & Phosphorus (B) Venue: Lecture hall 4	Lecture: Potassium & Chloride (B) Venue: Lecture hall 4	
12:45 – 01:15	Lunch/ Prayer Break		Lunch/ Prayer Break			
01.00 – 03.00	Group D: Pathology SGD – Lecture hall 4 Group E: Pathology SGD – Histology lab		Group D: Embryology tutorial– Lecture hall 4 Group E: Biochemistry SGD – Histology lab	Group D: Physiology SGD– Lecture hall 4 Group E: Embryology tutorial – Histology lab	Group D: Biochemistry SGD– Lecture hall 4 Group E: Physiology SGD – Histology lab	

CSL: History taking of patient with Diabetes Mellitus

Embryology Tutorial: Development of the male & female reproductive organs I

Anatomy lab: Bony Pelvis

Pathology SGD: Adrenal glands

Biochemistry lab: Endocrine pancreas – Oral Glucose Tolerance Test & HbA1C

Group A, B & C

Week 4 (30th April 2018)

Theme: Diabetes Mellitus

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30 – 10:30	Group A: Pathology lab Group B: CSL – Block C Group C: CSL – Block C	Public Holiday – Labour Day 1 st May 2018	Group A: Anatomy lab Group B: Pathology lab Group C: Pathology lab	Group A: Directed self-study Group B: Anatomy lab Group C: Directed self-study	Group A: CSL – Block C Group B: Directed self-study Group C: Anatomy lab
10:35 – 11:35	Lecture: Zinc & Fluoride (B) Venue: Lecture hall 3		Lecture: Iodine & Sulphur (B) Venue: Lecture hall 3	Lecture: Sodium & Phosphorus (B) Venue: Lecture hall 3	Lecture: Potassium & Chloride (B) Venue: Lecture hall 3
11:40 – 12:40	Lecture: Diseases of the Endocrine Pancreas (Pa) Venue: Lecture hall 3		Lecture: Oral Hypoglycaemic drugs (Ph) Venue: Lecture hall 3	Lecture: Medical Ethics – Special cases Venue: Lecture hall 3 Instructor: Dr. Zohaib Memon	Lecture: Oral Hypoglycaemic drugs (Ph) Venue: Lecture hall 3
12:45 – 01:15	Lunch/ Prayer Break		Lunch/ Prayer Break		
01:00 – 03:00	Group A: Physiology SGD – Lecture hall 3 Group B: Embryology tutorial – Anatomy lab Group C: Biochemistry SGD – Biochemistry lab		Group A: Pathology SGD – Lecture hall 3 Group B: Physiology SGD – Anatomy lab Group C: Physiology SGD – Biochemistry lab	Group A: Biochemistry SGD – Lecture hall 3 Group B: Pathology SGD – Anatomy lab Group C: Embryology tutorial – Biochemistry lab	Group A: Embryology tutorial – Lecture hall 3 Group B: Biochemistry SGD – Anatomy lab Group C: Pathology SGD – Biochemistry lab

CSL: History taking of patient with Diabetes Mellitus

Embryology Tutorial: Development of the male & female reproductive organs I

Anatomy lab: Bony Pelvis

Pathology SGD: Adrenal glands

Biochemistry lab: Endocrine pancreas – Oral Glucose Tolerance Test & HbA1C

Group D & E

Week 5 (7th May 2018)

Theme: Structure of the reproductive system

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30 – 10:30	Group D: Directed self-study Group E: Directed self-study	Group D: Histology lab Group E: Directed self-study	Group D: CSL – Block C Group E: Histology lab	Group D: Anatomy lab Group E: CSL – Block C	Group D: Directed self-study Group E: Anatomy lab
10:35 – 11:35	Lecture: Pelvic cavity, & floor (A) Venue: Lecture hall 4	Lecture: Bony and ligamentous pelvis (A) Venue: Lecture hall 4	Lecture: Perineum (A) Venue: Lecture hall 4	Lecture: Medical Ethics – Special cases Venue: Lecture hall 4 Instructor: Dr. Zohaib Memon	Lecture: Perineum continued... (A) Venue: Lecture hall 4
11:40 – 12:40	Lecture: Copper & Chromium (B) Venue: Lecture hall 4	Lecture: Manganese & Molybdenum (B) Venue: Lecture hall 4	Lecture: Calcium & Magnesium (B) Venue: Lecture hall 4	Lecture: Amino acid metabolism (B) Venue: Lecture hall 4	Lecture: Amino acid metabolism continued... (B) Venue: Lecture hall 4
12:45 – 01:15	Lunch/ Prayer Break				
01:00 – 03:00	Group D: Embryology tutorial – Lecture hall 4 Group E: Directed self-study	Group D: Biochemistry SGD – Biochemistry lab Group E: Embryology tutorial – Lecture hall 4	Group D: Pharmacology SGD– Lecture hall 4 Group E: Biochemistry SGD	Group D: Physiology SGD– Lecture hall 4 Group E: Pharmacology SGD	Group D: Directed self-study Group E: Physiology SGD – Lecture hall 4

CSL: Physical examination of the scrotum**Embryology Tutorial:** Development of the male & female reproductive organs II**Anatomy lab:** Perineum**Pathology SGD:** Diseases of the Pancreas**Histology lab:** Breast tissue

Group A, B & C

Week 5 (7th May 2018)

Theme: Structure of the reproductive system

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08.30 – 10.30	Group A: Anatomy lab Group B: CSL – Block C Group C: Histology lab	Group A: Directed self-study Group B: Anatomy lab Group C: CSL – Block C	Group A: Directed self-study Group B: Directed self-study Group C: Anatomy lab	Group A: Histology lab Group B: Directed self-study Group C: Directed self-study	Group A: CSL – Block C Group B: Histology lab Group C: Directed self-study
10.35 – 11.35	Lecture: Copper & Chromium (B) Venue: Lecture hall 3	Lecture: Manganese & Molybdenum (B) Venue: Lecture hall 3	Lecture: Calcium & Magnesium (B) Venue: Lecture hall 3	Lecture: Amino acid metabolism (B) Venue: Lecture hall 3	Lecture: Amino acid metabolism continued... (B) Venue: Lecture hall 3
11.40 – 12.40	Lecture: Pelvic cavity, & floor (A) Venue: Lecture hall 3	Lecture: Bony and ligamentous pelvis (A) Venue: Lecture hall 3	Lecture: Perineum (A) Venue: Lecture hall 3	Lecture: Medical Ethics – Special cases Venue: Lecture hall 3 Instructor: Dr. Zohaib Memon	Lecture: Perineum continued...(A) Venue: Lecture hall 3
12:45 – 01:15	Lunch/ Prayer Break				
01.00 – 03.00	Group A: Physiology SGD - Lecture hall 3 Group B: Pharmacology SGD – Anatomy lab Group C: Biochemistry SGD – Biochemistry lab	Group A: Directed self-study Group B: Physiology SGD – Lecture hall 3 Group C: Pharmacology SGD – Anatomy lab	Group A: Embryology tutorial -Lecture hall 3 Group B: Directed self-study Group C: Physiology SGD – Biochemistry lab	Group A: Biochemistry SGD - Lecture hall 3 Group B: Embryology tutorial – Anatomy lab Group C: Directed self-study	Group A: Pharmacology SGD - Lecture hall 3 Group B: Biochemistry SGD – Anatomy lab Group C: Embryology tutorial – Biochemistry lab

CSL: Physical examination of the scrotum**Embryology Tutorial:** Development of the male & female reproductive organs II**Anatomy lab:** Perineum**Pathology SGD:** Diseases of the Pancreas**Histology lab:** Breast tissue

Group D & E

Week 6 (14th May 2018)

Theme: Physiology of the Reproductive system

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08.30 – 10.30	Group D: Directed self-study Group E: Directed self-study	Group D: Histology lab Group E: Directed self-study	Group D: CSL – Block C Group E: Histology lab	Group D: Anatomy lab Group E: CSL – Block C	Group D: Directed self-study Group E: Anatomy lab
10.35 – 11.35	Lecture: Male reproductive organs (A) Venue: Lecture hall 4	Lecture: Male reproductive organs continued... (A) Venue: Lecture hall 4	Lecture: Female reproductive organs (A) Venue: Lecture hall 4	Lecture: Female reproductive organs II (A) Venue: Lecture hall 4	Lecture: Anatomy – Revision Venue: Lecture hall 4
11.40 – 12.40	Lecture: Functional anatomy of male & female reproductive organs (P) Venue: Lecture hall 4	Lecture: Male & Female reproductive hormones (P) Venue: Lecture hall 4	Lecture: Menstruation & Ovarian cycle (P) Venue: Lecture hall 4	Lecture: Physiological changes during pregnancy (P) Venue: Lecture hall 4	Lecture: Parturition & Lactation (P) Venue: Lecture hall 4
12:45 – 01:15	Lunch/ Prayer Break				
01.00 – 03.00	Group D: Embryology tutorial – Anatomy lab Group E: Anatomy SGD – Lecture hall 4	Group D: Directed self-study Group E: Embryology tutorial – Lecture hall 4	Group D: Biochemistry SGD – Lecture hall 4 Group E: Directed self-study	Group D: Directed self-study Group E: Biochemistry SGD – Lecture hall 4	Group D: Anatomy SGD – Lecture hall 4 Group E: Directed self-study

CSL: Physical examination of the Breast

Embryology Tutorial: Development of the male & female reproductive organs II

Anatomy lab: Male and Female reproductive system

Group A, B & C

Week 6 (14th May 2018)

Theme: Physiology of the Reproductive system

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08.30 – 10.30	Group A: Anatomy lab Group B: CSL – Block C Group C: Histology lab	Group A: Directed self-study Group B: Anatomy lab Group C: CSL – Block C	Group A: Directed self-study Group B: Directed self-study Group C: Anatomy lab	Group A: Histology lab Group B: Directed self-study Group C: Directed self-study	Group A: CSL – Block C Group B: Histology lab Group C: Directed self-study
10.35 – 11.35	Lecture: Functional anatomy of male & female reproductive organs (P) Venue: Lecture hall 3	Lecture: Male & Female reproductive hormones (P) Venue: Lecture hall 3	Lecture: Menstruation & Ovarian cycle (P) Venue: Lecture hall 3	Lecture: Physiological changes during pregnancy (P) Venue: Lecture hall 3	Lecture: Parturition & Lactation (P) Venue: Lecture hall 3
11.40 – 12.40	Lecture: Male reproductive organs (A) Venue: Lecture hall 3	Lecture: Male reproductive organs continued... (A) Venue: Lecture hall 3	Lecture: Female reproductive organs (A) Venue: Lecture hall 3	Lecture: Female reproductive organs II (A) Venue: Lecture hall 3	Lecture: Anatomy – Revision Venue: Lecture hall 3
12:45 – 01:15	Lunch/ Prayer Break				
01.00 – 03.00	Group A: Directed self-study Group B: Biochemistry SGD – Lecture hall 3 Group C: Directed self-study	Group A: Anatomy SGD – Lecture hall 3 Group B: Directed self-study Group C: Biochemistry SGD – Anatomy lab	Group A: Embryology tutorial – Lecture hall 3 Group B: Anatomy SGD – Anatomy lab Group C: Directed self-study	Group A: Directed self-study Group B: Embryology tutorial – Lecture hall 3 Group C: Anatomy SGD – anatomy lab	Group A: Biochemistry SGD – Lecture hall 3 Group B: Directed self-study Group C: Embryology tutorial – Anatomy lab

CSL: Physical examination of the Breast

Embryology Tutorial: Development of the male & female reproductive organs II

Anatomy lab: Male and Female reproductive system

Group A, B, D & E

Week 7 (21th May 2018)

Theme: Assessment week

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday
08.30 – 09.30	Study leave	Written exam: Paper 1 Anatomy: 55 MCQs Physiology: 45 MCQs Duration: 2 hours	Study leave	Written exam: Paper 2 Pathology: 15 MCQs Pharmacology: 15 MCQs Biochemistry: 60 MCQs Medical Ethics: 10 MCQs Duration: 2 hour	Integrated Practical Exam 09.00 – 04.00 PM OSPE & Viva Exam
09.35 – 10.30					
10.35 – 12.30					
01.00 – 03.00					

*in case of any change to the schedule/content, students will be informed in time.
